WORK CONTRACT No. 22-M/2026

for the installation of an irrigation machine for watering fields

Springfield April 15, 2026

HydroMount Service LLC (the “Contractor”), represented by its CEO, Andrew Tillman, and Romashka LLC (the “Customer”), represented by its CEO, Paul Smith, have agreed as follows.

1. The Contractor undertakes to install a Fregat DMU-B center-pivot irrigation machine on Field No. 7 of the Customer’s estate (158 acres) to water silage corn and perennial grass crops, together with its pumping station, to connect them to the water intake and the power grid, and to carry out commissioning. The equipment is supplied by the Customer.
2. The irrigation machine is self-propelled equipment for irrigating fields: its hydraulically driven wheeled towers travel across the field around a fixed pivot and water the crops on the field by sprinkling throughout the irrigation season, from May to September.
3. The work is carried out from May 4 to May 30, 2026. The machine’s readiness for irrigation is confirmed by a test run on the field and a completion certificate.
4. The cost of the work is $26,400.00. An advance payment of 50% ($13,200.00) is due within 5 business days after this contract is signed, and the balance after the completion certificate is signed.
5. Warranty on the work performed: 12 months.

Contractor: HydroMount Service LLC, Tax ID 37-2920346, 15 Factory Street, Chatham, IL 62629.
Customer: Romashka LLC, Tax ID 77-0512345, 12 Garden Street, Springfield, IL 62701.
